Our Severn Trent Customer

August 2024

Dear Customer

## Would you like to find out more about our Stroud sewerage project?

We'd like to thank you for your continued patience during our ongoing £25million project to upgrade the sewerage network across Stroud.

We've been busy working to construct our new Combined Sewer Overflow (CSO) which is located near to the Ebley Bypass.

The next phase of our project is to carry out some upgrades to our Stanley Downton Treatment Works. This work is required to ensure that our new CSO works efficiently.

Unfortunately, we've experienced some delays with obtaining some equipment we need to carry out this part of our project. This has had a knock-on effect to the end date for the overall project. We're working as quickly as possible to complete the project, working to our new completion date of September 2025.

As we near completion of our project, we would like to share our progress and let you know what we'll be doing in the final phases.

We're hosting a customer event on **Monday 30 September 2024**, so if you have any questions or would like to find out how our project is progressing, please come and visit us at, **Cotswold Bowls Club Ltd, Golden Jubilee Way, Stroud, GL5 3HQ, between 5.30pm-7.00pm**. It is a great chance to ask us any questions about the work and for us to find out more about your area.

Yours faithfully

Janine Billington
